The Intel® Teach Program

With over 4 million teachers trained in 40 countries, the Intel® Teach Program has been driving systemic change in teaching and learning since 1999. Teachers learn from other teachers how, when, and where to incorporate technology into their lesson plans, with a focus on developing students' 21st century skills. Participating teachers experience new approaches to create assessments and align lessons with educational learning goals and state and national standards.

Disc 1: Curriculum Files CD

This disc contains all the Adobe Acrobat* files (PDF) for the complete Intel® Teach Essentials Course curriculum manual for version 10, including:

- Manual cover
- Introductory pages and table of contents
- Module divider pages
- Modules 1 through 8
- Index

Instructions

Use the PDF files to view or print the complete Essentials Course v.10 curriculum. This curriculum is designed to be read and used in printed form, rather than directly in electronic form. For instance, the activity instructions would be easier to follow if printed, and areas for note-taking are provided throughout the curriculum. Therefore, we encourage you to use a printed version of the curriculum.

Discs 2 and 3: Curriculum Resource CD with Intel® Education Help Guides

Both discs contain the Curriculum Resource CD for curriculum v.10. Each disc contains a different version of the Intel Education Help Guide. **Disc 2** contains the Curriculum Resource CD with Intel Education Help Guides for Microsoft Office 2003* and XP*. **Disc 3** contains the Curriculum Resource CD with Intel Education Help Guide for Microsoft Office 2004 for Mac*. The Curriculum Resource CD is an integral part of the curriculum and is used throughout the unit creation process. It includes samples of complete unit portfolios, sample student projects, Internet resources, supplementary reading, and a wealth of information for creating rich, technology-integrated projects.

Instructions

The Curriculum Resource CD contains files organized by module and key topics. Instructions for using the Curriculum Resource CD are available in the Help Guide under the **Essentials Course** category.

Terms of Use for Pre-Service Teacher ("YOU"):

1. Neither YOU nor your instructor is permitted to make copies of the CDs.

2. The curriculum manuals on Disc 1 are designed to be used in print form. YOU and/or your instructor may print the curriculum manuals in their entirety or only the specific sections needed.

3. YOU are not permitted to sell the entire CD set ("CD materials").

4. Neither YOU nor your instructors are permitted to modify or alter the CD materials in any manner, except for classroom use, without prior written permission from Intel.

5. The CD materials may not be posted on an external, publicly facing Web page.

6. If YOU or your instructor reprint any materials from the Curriculum Resource CD, YOU must include the following statement on the first page of the material: "Copyright © 2007 Intel Corporation. All rights reserved. Reprinted and distributed by permission of Intel Corporation."

7. All materials on the Curriculum Resource CD may be freely printed for and distributed to YOUR future students.

8. Intel retains all Intellectual Property Rights in the material.

9. Use of the Intel Education identifier (logo) is not permitted.

System Requirements

Disc 1: Curriculum Files CD

You will need Adobe Reader 7.0* or later to open and print the curriculum files.

Discs 2 and 3: Curriculum Resource CD with Intel Education Help Guide

The Curriculum Resource CD Index will function using any current Internet browser, but it runs best with the following:

- Minimum of 64 MB of RAM

- Microsoft Internet Explorer 5.0* or later, set as the default browser

  OR

- Safari*, set as the default browser

If you have difficulty using the **start_here** file to launch the Curriculum Resource Index or Help Guide, you can start them individually. Start the Curriculum Resources by double-clicking the **Essentials.htm** file that is located within the **Curriculum_Resource_CD** folder. Start the appropriate Help Guide by double-clicking **Help_Guide.exe** that is located within the Help Guide folder.

For information on software and systems supported by the Help Guide, visit: **www.intel.com/education/helpguide**
