

Project Based, Community Driven

The Intel® Learn Program is a 60-hour, hands-on curriculum built around two core modules that tap into children's interest in their own communities while nourishing their curiosity with creative, technology-driven projects. Intel Learn enables under-served youth aged 8-16 to learn digital literacy, critical thinking, and collaboration using an engaging, project-based curriculum in a community-centered setting.

Focused on meeting the needs of emerging markets, Intel Learn has reached more than 150,000 learners in eight countries.

Independent evaluation results conducted by the Center for Technology in Learning at SRI International show that Intel Learn supports the development of participants' key 21st century skills.

Disc 1: Technology and Community v. 2.0

Technology and Community introduces learners to technology skills such as word processing, graphics, spreadsheets, multimedia, and Internet research. Through activities and projects, learners discover how the effective use of computers can help improve communities. Examples of projects include creating community calendars, news articles, and multimedia presentations.

Instructions

Start the CD by using **My Computer** to open the CD drive, and then open the folder **Intel_Learn_Community_CD**. Double-click the **Community_CD_Start** file to open it. This file should open in Microsoft Internet Explorer*, as it should be set as your default Internet browser.

From the CD home page, you will see the table of contents in the left pane. Click the links to access the information in the curriculum manual. For more details, tips, and instructions, click the **Staff Information** link in the left pane.

Disc 2: Technology at Work v. 1.0

Technology at Work shows learners how computers are used in a variety of jobs and careers. Using increasingly sophisticated software tools, students create projects ranging from designing a survey that a health care worker might use to assess health needs to developing a project management plan that a local engineer might create before starting a building project.

Instructions

Start the CD by using **My Computer** to open the CD drive, and then open the folder **Intel_Learn_Work_CD**. Double-click the **Work_CD_Start** file to open it. This file should open in Microsoft Internet Explorer, as it should be set as your default Internet browser.

From the CD home page, you will see the table of contents in the left pane. Click the links to access the information in the curriculum manual. For more details, tips, and instructions, click the **Staff Information** link in the left pane.

Terms of Use for Staff Member ("YOU"):

1. Neither YOU nor your learners are permitted to make copies of the CDs.
2. Neither YOU nor your learners are permitted to sell the CD materials (entire CD set).
3. Neither YOU nor your learners are permitted to modify or alter the CD materials in any manner without written permission from Intel.
4. The CD materials may not be posted on an external, publicly facing Web page.
5. Reprinting of the curriculum manual pages (PDF files) within the CDs is permitted as long as the printed documents are for use by the learners.
6. Intel retains all Intellectual Property Rights in the material.
7. Use of the Intel® Education identifier (logo) is not permitted.

System Requirements

To properly use the Intel® Learn Program Curriculum CDs, ensure that all computers accessing the CDs meet these minimum requirements:

Hardware

- Intel® Pentium® processor 200 MHz (performance level or better) or compatible processor
- Microsoft Windows 2000* (including Service Pack 2 and Microsoft Paint*) operating system or later
- Minimum of 64 MB of RAM
- 800 x 600 screen resolution or higher
- Internet connection
- CD-ROM drive

Internet Browser

- Microsoft Internet Explorer 5.0* or later, set as the default browser

Software

- Adobe Acrobat Reader 7.0* or later
- Microsoft Excel 2000* or later
- Microsoft PowerPoint 2000* or later
- Microsoft Word 2000* or later

For more detailed information or instructions on how to obtain Microsoft Internet Explorer and Adobe Acrobat Reader, see the **Staff Information** page located on each CD.
