

Find Someone Who...

Now is the time to meet your classmates. Remember that your classmates will be a valuable resource to you.

- What type of information would you like to know about your classmates?
- What information would you like your classmates to know about you?

Spend the next five minutes telling your partner one interesting fact about yourself and asking your partner one question about him or her.

Now, let us learn about the other classmates. Since you cannot write in this book, you and your partner will need to get a sheet of paper and number it from 1 to 20.

Then, you will move around the room and ask questions to find a classmate who matches one of the numbered descriptions in the following list. When you and your partner find a match, you will ask that classmate to sign his or her name and to write his or her answer next to the corresponding number on your numbered sheet of paper.

You will have 20 minutes to find as many matches as you can. Note that each classmate cannot sign his or her name more than twice. When you are done, show the sheet with the signatures to your teacher. Begin when you are instructed to do so.

Unit 1: Technology and Community

Find someone who...

1. ... likes to paint or draw. What have you painted or drawn?
2. ... likes to go on hikes. Where is your favorite place to hike?
3. ... has used a computer before. What did you use it for?
