

Work with your group to decide what will go on each page.

# Web Site Storyboard

Names \_\_\_\_\_  
\_\_\_\_\_

## Introduction

Tell about your animals.

## Habitat

Describe the habitat, where your animals live in the habitat, and what other plants and animals will be found there.

## Food Web

Combine information from your individual food webs and show the producer, consumer, decomposer, and sun relationships in the food web.

## Survival Strategies

Describe how your animals get along in their habitat. What adaptations do they have to make them perfect for their niche? What would happen if there were too many or too few of any one animal?

## Compare

Compare your animal to other animals or to humans (size, speed, longevity, sensory acuity, food consumption, care of young, and so forth).

## Conservation

Find out about the health of your animals in their habitat. Compare populations over time. Compare risks over time. Give suggestions for how people can help.
