- 5/28 Holiday
NO SCHOOL
- 5/29 Talk About Trees
Papermaking
- 6/6 Field Trip to Crystal Springs
Rhododendron Garden
- 6/13 Last Day of School!!!

It Is Spring!

Wow! Finally, spring is here!

Here are some things we know about SPRING:

The days are getting longer.

It's getting warmer.

Trees are starting to get new leaves.

The birds are back.

There are Swifts in our chimney so the heat is turned off.

Lots of flowers are blooming.

Some days are nice, but it still rains a lot!

We planted seeds and are watching them grow.

Spring Things

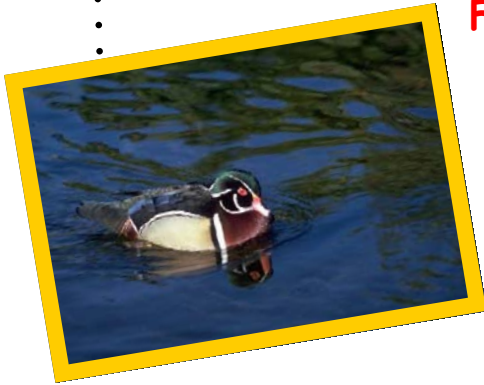

We made spring banners this week. One side is watercolors and there are spring flowers on the other.

We made our "Spring" book. Each of us made a page.

We painted BIG spring flowers. They are out in the hall.

We took pictures of us outdoors and made our own slideshows! They are cool!

How does the world change during the year?

Field Trip to Crystal Springs Rhododendron Garden

6. Mark your calendars!

We'll get to feed the ducks! (There might even be baby ducklings to see!)

Can you come to help?

More information and

permission slips will come home with the June News.

We will be going to the Crystal Springs Rhododendron Garden for our seasonal visit on Wednesday, June

How Do Our Lives Change With the Seasons?

The Four Seasons are:

- Summer
- Fall
- Winter
- Spring

There are four seasons each year. The weather is different in each. Trees change.

SUMMER: It's HOT! The days are long and you can stay up late.
FALL: It's cooler. The days are getting shorter and school has started so you go to bed earlier now.

WINTER: It's COLD! It might snow. It's dark more hours in the day!
SPRING: It's getting warmer. The daylight time is longer.

Our Class Tree

We picked out a tree for our class on the first day of school.

Every season we go out and stand next to

it. Our teacher takes our picture. We write about the season.

Now that it is spring, our tree has lots of blossoms!

What is your favorite
