

Intel believes that students everywhere deserve to have the skills necessary to become the next generation of innovators.

The Intel® Teach Program—part of the Intel® Education Initiative—is the most successful teacher professional development program of its kind. Working with local governments, Intel Teach builds teachers' and students' 21st century skills, such as digital literacy, critical thinking, problem solving, and collaboration, through quality teaching and learning. This unparalleled public-private collaboration has trained more than 5 million teachers worldwide.
