

## Empowered teachers change lives.

The Intel® Teach Program helps K-12 teachers to be more effective educators.

These Intel® Teach tools and resources are designed to:

- Teach 21st century skills
- Integrate technology into lessons
- Promote problem solving, critical thinking, and collaboration

## Create a world of opportunity

The Intel® Teach Program has trained more than five million teachers in more than 40 countries to integrate technology into their lessons, promoting problem solving, critical thinking, and collaboration skills. Join us.
