February 12, 2001

Dear ISP4400 Internet Server Platform Customer:

Intel is announcing the product discontinuance of the ISP4400 Internet Server Platform. The Intel® SKODVBKHI server is being introduced to replace the current ISP4400 product code. **There is no form, fit or function change to the platform.** The ownership of the ISP4400 has transferred from CPG to ESG and is being renamed the SKODVBKHI.

The transition from the current ISP4400 to SKODVBKHI will be a hard cut in at the factory with no last time buy opportunities for customers. The cut in at the factory will be completed March 30, 2001. Product under the SKODVBKHI product code will be available on April 13, 2001. The current ISP4400 product code will be discontinued.

This notification affects the following product codes:

Server sku to be discontinued	MM #
ISP4400	827830

New transition server sku	MM #
SKODVBKHI	835291

The recommended transition product is:
From: ISP4400
To: SKODVBKHI

Please contact your local Intel Sales Office or Distributor if you require more information or need assistance.

Sincerely,

Internet Management & Appliance Division
