

Dear Valued Intel Customer,

You are invited to evaluate a pre-production version of the latest addition to Intel's Server Building Block family, the Intel® Remote Management Module - (Intel® RMM). Intel® RMM is compatible with Intel® 5000X and 5000P-series server boards, which are currently in pre-production status. The Intel® RMM is built around a new management connector known as the "Advanced Server Management Interface" and offers an essential set of features for server management and diagnostics, including:

- Remote Keyboard Video Mouse (KVM) resolution up to 1280 x 1024
- USB media redirection
- OS-independent remote server management
- Secured connection using HTTPS/SSH
- OEM User Interface Branding
- IPMI 2.0, DMTF/SMASH support
- Support for all Intel® 5000X and 5000P server platforms

Commercial Availability

The commercial (production) version of the Intel® RMM is expected to begin shipping with the Intel® 5000X series of servers.

Support Information

Intel's standard technical support lines will not be available for pre-production evaluation units. Please contact your local Intel field representative with any questions, issues, and feedback. Production units will have standard Intel® server board support, including a 3-year limited warranty.

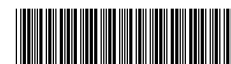

Terms and Conditions

We invite you to participate in this evaluation of the pre-production Intel® RMM and the accompanying materials under the following terms. If you are unable to agree to these terms, please return the Intel® RMM and Materials to Intel.

- You may use the Intel® RMM and Materials for validation and evaluation purposes only.
- You may not resell the Intel® RMM or Materials, or transfer them to any other person or entity, in whole or in part.
- **BECAUSE THE INTEL® RMM AND MATERIALS ARE PRE-PRODUCTION UNITS, THEY ARE PROVIDED TO YOU ON AN "AS IS" BASIS. ALL WARRANTIES, WHETHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ANY WARRANTY ARISING OUT OF ANY PROPOSAL, SPECIFICATION OR SAMPLE, IS EXPRESSLY DISCLAIMED.**
- Intel will not be liable to you for any direct or indirect damages incurred by your use of the Intel® RMM and Materials, including loss of profits, loss of use, incidental, consequential

Intel, Pentium, and the Intel logo are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries.

*Other names and brands may be claimed as the property of others.

or special damages, irrespective of whether Intel has been advised of the possibility of such damages.

- The Intel® RMM and Materials may include pre-release features, capabilities, or errata, which may not be available or accessible in Intel's commercial version(s). Pre-release features and capabilities may include features or capabilities that are not required in order to meet the Intel data sheet specifications for the commercial version(s). Inclusion of such features or capabilities, or development or support of a commercial version of the Intel® RMM and Materials, is at Intel's sole discretion.

We believe that you will find the Intel® RMM to be a high-quality server management module with essential features that fit your server management needs.

Sincerely,

Intel® Remote Management Module Development Team

Important information for setting up and using your Intel® RMM. Please review this information before assembling or using.

BIOS and Firmware

The Intel® Remote Management Module might require the most current BIOS, firmware, and/or FRU/SDR for the server board you are using. Please visit IBL for the latest up-to-date firmware versions.

Important Safety Instructions

Read all caution and safety statements in this document before performing any of the instructions. See *Intel Server Boards and Server Chassis Safety Information* at <http://support.intel.com/support/motherboards/server/sb/cs-010770.htm>.

Wichtige Sicherheitshinweise

Lesen Sie zunächst sämtliche Warn- und Sicherheitshinweise in diesem Dokument, bevor Sie eine der Anweisungen ausführen. Beachten Sie hierzu auch die Sicherheitshinweise zu Intel-Serverplatinen und -Servergehäusen unter <http://support.intel.com/support/motherboards/server/sb/cs-010770.htm>.

重要安全指

在执行任何指令之前，请阅读本文档中的所有注意事项及安全声明。和/或 <http://support.intel.com/support/motherboards/sb/cs-010770.htm> 上的 *Intel Server Boards and Server Chassis Safety Information*（《Intel 服务器主板与服务器机箱安全信息》）。

Consignes de sécurité

Lisez attention toutes les consignes de sécurité et les mises en garde indiquées dans ce document avant de suivre toute instruction.
