

## 8 Install Hard Drives/Carriers

- A Remove the drive carrier by pressing the green button and opening the lever.
- B Slide the carrier away from the chassis.

Note: Hard drive 3 location is shown above.

- C Remove the air baffle and save for future use.

- D Attach the hard drive to the carrier with four screws as shown.

- E With the lever open, insert the hard disk drive assembly into the chassis opening and push until the locking lever engages.
- F Push in the lever to lock it into place.

**CAUTION:** If you install less than three drives or devices, empty drive bays must be occupied by carriers with baffles to maintain proper system cooling.

## 9 Install and Cable Optical Device (optional)

- A Remove the security screws.
- B Remove the Filler Panel.

**CAUTION:** To maintain proper system cooling, a filler blank must be installed if you do not install a device at this location.

- C Install the plastic latch on the rear side of the drive and fix it with two screws.

- D Pull the power and data cables through the front of the chassis opening.
- E Connect the cables as shown.

**IMPORTANT NOTE:** Refer to the Cabling Diagram below for connection locations and cable routing.

- F Insert optical device assembly into front panel opening and push all the way until it stops.

## 10 Install PCIe Add-in Card

- A Remove filler panel from the add-in card slot.
- B Insert add-in card until it seats in the riser connector.
- C Secure add-in card with screw as shown.

**CAUTION:** Observe normal ESD precautions when installing add-in cards.

## 11 Install PCIe Add-in Card Riser Assembly

- A Align the riser assembly with the server board riser socket.
- B Press the riser assembly into place and secure with the screw.

## 12 Install Processor Air Duct

Install processor air duct as shown.

**NOTE:** Use care to avoid pinching system cables.

## 13 Install the Top Cover

- A Place cover onto chassis and slide forward to engage recessed edge at front of cover.
- B Tighten the four screws.

## 14 Install Rack Handles

## 15 Finishing Up

Before installing your operating system, you must finish your system installation and connect back panel I/O connectors and AC power.

1. Make sure you have replaced the system cover.
2. Connect your keyboard, mouse, video and other I/O cables/devices as shown. Then connect the AC power cord.

**CAUTION:** This unit must be operated with the TOP COVER installed to ensure proper cooling.

## 16 Software • BIOS, Drivers, and Operating System Installation

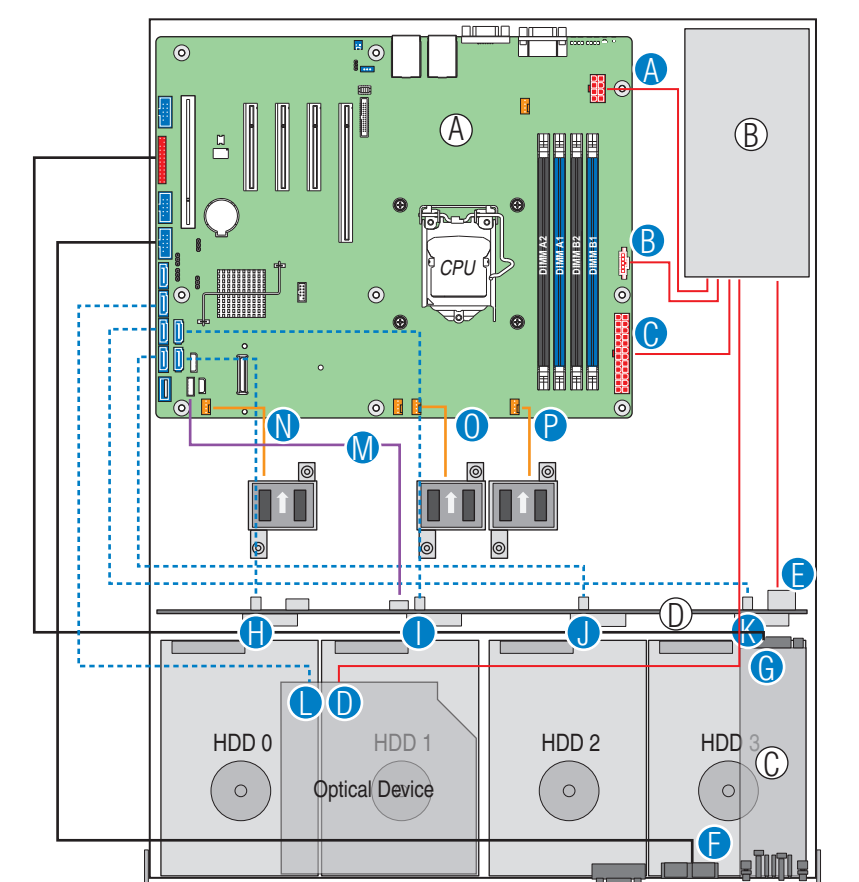

- A. Confirm BIOS Version:** Look on the Server/System Management screen in the BIOS Setup Utility to determine the installed BIOS version. Compare this to the versions at: <http://www.intel.com/support/motherboards/server>. If new versions are available, update the BIOS on your server. See the Technical Product Specification on the Intel® Server Deployment Toolkit CD for update instructions.
- B. Configure your RAID Controller:** Use the instructions provided with the RAID controller.
- C. Install your Operating System:** Use the instructions provided with the RAID controller and with the operating system.
- D. Install Operating System Drivers:** With the operating system running, insert the Intel® Server Deployment Toolkit CD. If using a Microsoft Windows® operating system, the Intel® Deployment Assistant will autoun and allow you to select the appropriate drivers to install. On other operating systems, browse the CD folders to locate and install the driver files.

### Front Panel Controls and Indicators (shown with bezel removed)

- A. USB 2.0 Connectors
- B. System ID Button
- C. NMI Button
- D. LAN1 LED
- E. LAN3 LED
- F. Reset Button
- G. Status/Fault LED
- H. Power Button
- I. HDD LED
- J. LAN4 LED
- K. LAN2 LED

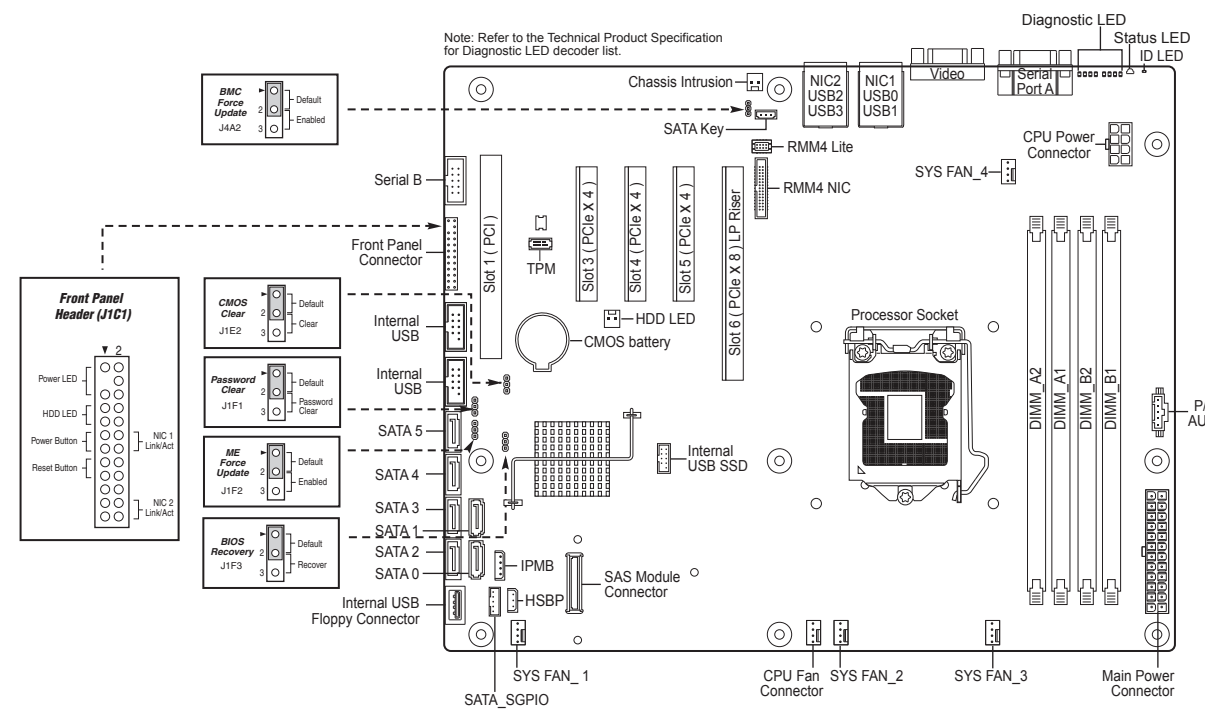

### Platform Cabling Diagram

- A Server Board
- B Power Supply
- C Front Panel Board
- D Backplane
- A Power to Server Board (CPU)
- B PSU Management Bus to AUX
- C Power to Server Board (Main)
- D Optical Device to Power Supply
- E Optical Device to Backplane
- F Front Panel USB
- G Front Panel
- H HDD 0 to Server Board SATA 0
- I HDD 1 to Server Board SATA 1
- J HDD 2 to Server Board SATA 2
- K HDD 3 to Server Board SATA 3
- L Optical Device SATA Data Cable
- M Link to Backplane SGPIO
- N Blower Fan #1 Power
- O Blower Fan #2Power
- P Blower Fan #3 Power
