Enterprise-Ready Cluster Solution

The Backbone for the Connected Enterprise

Compaq and Microsoft have developed an Enterprise-Ready cluster solution to provide a highly reliable and available system for the most demanding customer environments. The solution includes a 4-node cluster of Compag ProLiant™ 8500 Data Center servers, StorageWorks,™ and Microsoft Windows 2000 Datacenter Server operating system. The solution also offers custom proof-of-concept testing and a robust service package for complete support. And for a limited time, the solution is available at a 15% savings to qualified customers. The combined offering provides the main backbone upon which a .NET business infrastructure can be constructed.

Services Included

Compaq Global Services offerings provide full lifecycle support for the Compaq Data Center Solutions. This includes design and implementation, planning, and management and support. Services included with the Enterprise-Ready Cluster promotion are:

- > One-year Data Center Enterprise Support Plan for four-node cluster
- > One-year Windows 2000 Datacenter Server OS Update Subscription service for all nodes
- > Windows 2000 Datacenter Server Installation and Startup service for four-node Cluster
- > RAID Installation and Setup service for MA8000

Proof of Concept Tested

The Enterprise-Ready Cluster Solution is tested by the Compaq Data Center Solutions engineering team in a proof-of-concept configuration. The solution includes a custom one-week proof of concept test in the Compag Solutions Center. Upon completion it is shipped to you fully racked and assembled for rapid deployment. Compaq Global Services for customer on-site installation and enterprise support are included.

Solution Profile

- > Server Consolidation
- Latest version of Windows 2000
 Datacenter Server with installation included
- > Factory integrated OS and configuration
- > 764GB (Raid 5) SAN Storage-Fibre channel infrastructure
- Services and support included
- > Proof-of-concept test included
- > Significant cost savings

One Order Number Does it All!

For ease of purchase, the entire solution is available as one part number. The part number will generate a complete order, which includes the following products, storage, software, services and options:

Other Software	2	RAID Installation and Setup - MA8000
	1	Priority Exec Support, 1yr, Storage, 24x7, 2hr, 300K-324,999 IP band
	Other Software	
		Compaa Resource Partition Manaaer

Customer Qualifications

To qualify for this special offering:

- > An assigned customer resource willparticipate during Compaq customproof of concept testing.
- > No third-party corporate software can be included in the installation setup at Compaq manufacturing facilities.
- > Joint publicity opportunity
- > Agree to be a Compaq reference account and to publish a success story

Exclusively from Compaq, this system will be available if purchased by December 1, 2001 and installed by January 31, 2002 for qualified customers.

For more information,

Contact your Compaq Account Executive, or e-mail datacenter@compaq.com
