Setting up:
your new Gateway convertible notebook

1 INSTALL THE BATTERY
With the label side down, slide the battery into the battery compartment until it clicks. Then lock it in place.

2 CONNECT TO AC POWER
Leave the AC adapter plugged in for at least three hours the first time, so the battery will fully charge.

3 CONNECT TO THE INTERNET (optional)
Connect a phone cord to the modem jack ( ) if using dialup Internet access, or connect an Ethernet ( ) or USB ( ) cable if using high-speed access.

4 START THE NOTEBOOK
Press the power button, then follow the on-screen instructions to complete Windows setup.

Getting help:
tips for getting the most out of your new Gateway notebook

SEE YOUR ONLINE DOCUMENTATION
For detailed information about using your Gateway notebook, see your *Reference Guide* that has been included on your hard drive.

For general information about using Windows and the programs that are installed on your notebook, connecting your notebook to the Internet or a network, and protecting your computer, see your *User Guide* that has been included on your hard drive.
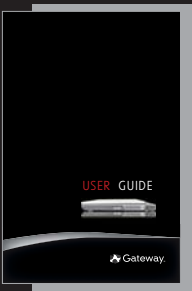

To access your online documentation, click (Start), **All Programs**, then click **Gateway Documentation**.

CHECK GATEWAY SUPPORT
For help and information about common issues, visit our Internet Support Site at gateway.com.

SEE YOUR STARTER GUIDE
After setting up your computer, read the *Starter Guide* guide for tips on using your notebook.

MANAGE YOUR BATTERY LIFE
To get the most out of your battery:
*   Dim the display as low as you can comfortably see.
*   Remove PC Cards when not using them.
*   Modify the power management settings to reduce power use.
*   Use Hibernate mode when not using your notebook.
*   Use the optical drive only when you need to.
*   Travel with an extra battery and fully charge batteries before traveling.
*   Use your AC power adapter whenever power is available.
For more information, see "Managing Power" in your *Reference Guide.*

WORK SAFELY & SECURELY
Your Gateway notebook comes with the software you need to connect safely and securely. To ensure a high level of security, you should:
*   Regularly update your antivirus software.
*   Install all critical updates for Microsoft Windows (click (Start), **All Programs**, then click **Windows Update**).
*   Use the security features provided in the Windows Security Center (click (Start), **Control Panel**, then click **Security**).

TECH SUPPORT INFORMATION
See the label on the bottom of your notebook.
