

MCU00100 -

FLASH MCU

AVR[®]

The MCU00100 Flash MCU Starter Kit is a complete low-cost evaluation system for the Atmel AT90S Series of AVR[®] 8-bit FLASH microcontrollers. The kit features include:

- Easy-to-use development board, with device programming capability
- Support for 8-pin, 20-pin & 40-pin AT90S AVR devices
- RS232 serial port for PC interface
- 8 push-button switches and 8 LED's for application simulation
- AVR Studio[®] for software simulation and debugging
- All device ports easily accessible through 0.1" header connectors
- Selectable 3.3V or 5V operation
- Regulated power supply
- AT90S1200 Device included
